Troubleshooting

Keyboard does not work

- Check the USB cable connection.
- Use another USB port.
- Connect directly to the computer and don't use a USB hub.
- If the keyboard still doesn't work, please restart your computer.

The function keys available depend on which keyboard you have.
To identify your keyboard, look at the label fixed to the bottom.

R-Go Split keyboard

To select a function key such as F1, just press the F-key.

To select a function key such as F11, F12 , press and hold the blue FN key on the bottom row of the keyboard, then press the F1- or F2-key.

To select a feature, press and hold the blue FN key on the bottom row of the keyboard, then press the F-key or number. The following features are available:
Fn + F1 =   F11
Fn + F2 =   F12
Fn + F3 =   Scroll Lock
Fn + 1 =   Home
Fn + 2 =   End
Fn + 3 =   PgUp
Fn + 4 =   PgDn
