- Plug & Play setup
- Optical sensor switch: 800/1200/1600 DPI
- Rechargeable lithium battery 500MAh
- Compatibility: Windows, Mac OS, Chrome OS & Android
- USB-A connectivity
- Included charging USB-C cable 80 cm
- Dimensions: 11.5x9.2x7.1cm
- Weight: 79g

PRODUCT
Bluetooth +wireless & rechargeable ergonomic mouse trackball

INSTRUCTIONS
To charge the battery, connect the charging cable to the USB port of the mouse, and wait for the battery to be charged.
Your mouse has dual 2.4 GHz radio and Bluetooth connectivity. Please follow the procedure below to connect your mouse to your device:

2.4 GHz wireless connection
1. Take out the nano USB receiver located on the bottom of the mouse
2. Insert it into a USB port on your computer
3. Turn the mouse switch to<2.4GHz>
4. Your mouse will then pair itself automatically with your device

Bluetooth connection
1. Turn the mouse switch, located on the bottom of the mouse, to<BT>
2. Press the <BT synchro> button for 3 to 5 seconds. The mouse is then in pairing mode
3. Configure the Bluetooth parameters on your device using the Bluetooth instructions or the documentation for your device in order to establish the Bluetooth connection
